1 • Introduction

Introduction

About this template

The `BetterIMTAtlantique` beamer theme provides a template that satisfies IMT Atlantique identity rules. It also provides some graphics assets useful for a presentation.

2 • Theme options

partnerlogo=<path>

Use given path as partner logo

Example

```
\usetheme[
    partnerlogo=logos/labsticc
]{BetterIMTAtlantique}
```

enablesectioninterframe

Enable sections interframes.

Example

```
\usetheme[
    enablesectioninterframe
]{BetterIMTAtlantique}
```

enablesubsectioninterframe

Enable subsections interframes.

Example

```
\usetheme[
    enablesectioninterframe,
    enablesubsectioninterframe
]{BetterIMTAtlantique}
```

3 • Features

Description blocks

Description blocks

Description blocks are useful to display a title and some information.

Example

```
\begin{block}{Cats are beautiful}
  \begin{itemize}
    \item They have soft fur
    \item They purr when we pet them
    \item They like receiving attention
  \end{itemize}
\end{block}
```

Colored blocks

Four colored description blocks are defined :

▶ blueblock
▶ greenblock
▶ redblock
▶ blackblock

greenblock

This is a greenblock !

redblock

This is a redblock !

blackblock

This is a blackblock !

Showcase

Showcases blocks

Showcase are used to display a short text next to a logo

A blue showcase with a building logo

Green showcase Server logo

Example

```
\begin{minipage}{0.47\textwidth}
    \begin{showcase}{showcase blue}{building}
        A blue showcase with a building logo
    \end{showcase}
\end{minipage}\hfill
\begin{minipage}{0.47\textwidth}
    \begin{showcase}{showcase green}{server}
        Green showcase\\
        Server logo
    \end{showcase}
\end{minipage}
```

➤ Showcases use `fontawesome5` logos

➤ Use `https://fontawesome.com/icons` to find the most accurate !

➤ Showcases can also be blue, green, red or black
